- The following points were discussed on including CSIR syllabus in the syllabus for B.Sc., and M.Sc., Mathematics courses and recommended to the Academic Council of the college.
- I.N. Herstein Book is enough syllabus for UG and PG, it contains theory 90% and it is not enough to solving CSIR problems.

- Mathematical Statistics syllabus contains 80% problem and 20% theory; our students have been studied one fourth of syllabus from school levels. So, we need to change the syllabus at the level of CSIR.
- We do not change syllabus for ODE and PDE paper, it is effective syllabus but recommended text book of PDE is not available currently.
- Unit V –Global Analytical Continuation in Complex Analysis-II is very advanced syllabus, and this chapter does not have any important role in CSIR.
